

MEDICATION THERAPY MANAGEMENT

CMS COMPLIANT MEDICARE - PART D

SinfoniaRx's MTM program was built to be both innovative for our clients as well as fully compliant with the CMS MTM program requirements. Each health plan we serve has the ability to select a custom Comprehensive Medication Review (CMR) completion rate for their program. SinfoniaRx fully guarantees the rate, with 100% success since our inception. More than just CMRs, SinfoniaRx also maintains over 300 clinical algorithms to create a targeted rule set to identify potential drug therapy problems and STAR opportunities. All services are completed through our proprietary software, RxCompanion™, and the proactive outreach methods of our dedicated team of credentialed MTM experts.

Medication Therapy Management Programs for Medicare Part D

The SinfoníaRx MTM program includes many features geared toward patient engagement, leading to strong outcomes performance and guaranteed CMR completion rates, as well as program oversight for clients. Some of these key features include the following:

- **MTM Program Qualification** – utilizing historical claims and current claims received as frequently as daily for early identification of members for qualification
- **CMR Offers** – performed via letters in an average of 10 days post qualification and verbal offers made for members with invalid address
- **CMRs** – custom and guaranteed CMR completion rates, completed through proactive patient outreach via SinfoníaRx’s unique patient engagement tools and 100% success of achieving client goals
- **Targeted Medication Reviews** – completed every time a qualified member has a new fill or should have a fill for a chronic medication, identifying potential drug therapy problems and STAR opportunities much more frequently than other programs
- **Post-CMR Letters** – fully compliant with all requirements for post CMR letters in the CMS standard format
- **Reporting and Data Validation** – SinfoníaRx fully supports all CMS reporting needs and provides support for data validation audits, with a 100% pass rate
- **Credentialed MTM Providers** – all dedicated pharmacists providing MTM services are fully credentialed by SinfoníaRx and experts in MTM services
