

Patients with chronic illness face a number of challenges managing their day-to-day and long term health, in part because medications are complex, confusing, costly and potentially dangerous. SinfoniaRx provides a solution, orchestrating the health and wellness of these populations along with our health partners. Through our unique and proven Medication Therapy Management programs, we are combining state-of-the-art health information technology with experts in clinical care and pharmacotherapy to improve patient lives and the performance of each plan that we serve.
