

TRHC's SinfoniaRx Congratulates Dean Health Plan - 2018 PQA Quality Award Recipient

MOORESTOWN, N.J., June 4, 2018 – Tabula Rasa HealthCare, Inc. (TRHC) (NASDAQ:TRHC), a healthcare technology company optimizing medication safety, congratulates 2018 PQA Quality Award recipient, Dean Health Plan, for their dedication to comprehensive patient care through innovative solutions. The Pharmacy Quality Alliance (PQA) recently awarded ten Medicare plan contracts the PQA Excellence in Quality Award for high achievement in measures of medication safety and appropriate use.

As one of only ten plans recognized for the highest level of combined achievement in overall performance and medication-use quality, Dean Health Plan's commitment to medication safety is evident in the design of their unique medication therapy management (MTM) program model. Central to the Dean Health Plan MTM program is collaboration with their Integrated Delivery Network partners SSM Health Dean Medical Group. Their ability to manage medication for members was significantly enhanced by SinfoniaRx, a TRHC subsidiary. Through the model, patients at risk for medication-related problems are triaged for clinical pharmacy services delivered by either an SSM Health Dean Medical Group pharmacist working in the patient's clinic or by a SinfoniaRx pharmacist telephonically. The coordination of services is managed through the use of SinfoniaRx's platform, RxCompanion™. Through the use of the platform, SSM Health Dean Medical Group pharmacists embedded in the clinic setting are able to identify patients most at risk for medication safety concerns and intervene directly with the patients and their prescribers face-to-face. This results in appropriate medication usage and improved medication-related Star ratings.

“Our approach to medication safety is to ensure our patients and practitioners have access to highly trained pharmacists,” says Dr. Julia Wright, Dean Health Plan Chief Medical Officer. “By utilizing SinfoniaRx's medication management toolset, we are able to deliver valuable and strategic solutions that coordinate embedded, in-clinic pharmacists with the broader MTM services provided by SinfoniaRx.”

SinfoniaRx is honored to serve Dean Health Plan and the thousands of practitioners and patients who depend on their high-quality, patient-centric Medication Management services.

About Dean Health Plan

With access to more than 4,000 practitioners at close to 200 primary care sites and 28 hospitals, Dean Health Plan is one of the largest and most diversified HMOs in the Midwest. It maintains a position of leadership in insurance services through an integrated delivery network of physician practices, hospitals, pharmacies, post-acute services as well as a wholly-owned pharmacy benefits management company that are part of SSM Health, a St. Louis-based integrated health system.
